PURPOSE

Our purpose is to promote woodturning arts and crafts. We hold monthly meetings that usually include demonstrations, show and tell and experience sharing. We have our own facility. Hands-on clinics provided by Master Turners are offered from time to time to allow members to expand and sharpen their skills and learn some of the many techniques used to turn and decorate wood.

Woodturning offers amazing results using a lathe and sharp gouges of many shapes and sizes to create bowls, pens, ornaments, vases, and wonderful stuff that may not at first appear round. And it can be carved, pierced, burned, painted and finished with oils, varnishes and waxes of various "secret" formulas.

Join us and become addicted to this art and craft. Our members range from beginners to very skilled and are ready to share their woodturning skills with others.
